When you would plant or graft, consider where the wind bloweth: if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the mos in the month of January.

Plash hedges and lop trees for fuel, that the head may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, in the wane of the Moon.

Sow Cucumbers and Melons in February, March or June, in a hot and a fair day.

Excellent Notes of Husbandry and Gardning, for every Moneth in the Year.

IN January cut down Timber (and it shall not think not be eaten with worms) in the last quarter of the Moon set or sowe Kernels, and Berries of Wap-trees, Privet, and Box. Set Quick-sets, Role-trees, Peaches, Filberts and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: sowe or set Beans and Pease, and mung land in the last quarter: geld Cattel to rear, fallow land for Wheat and Rye: Trench Gardens with mung, and remove Bees, and for your own health, keep your body warm, let good and wholesom diet be your Phisitian, moderate exercise and labour your sawce to cause appetite.

February.

NOw sowe all sorts of Pease and Beans, and other Pulse, sowe Mustard-seed, cast up birth-ees, set and plant Vines, Hops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from moss, canker, and all superfluous branches. Graft in the latter end of the moneth, sowe Onyons in cold stiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but West or South) graft Pear, Warden, or Apple-trees, make an end of sowing all manner of Pulse, and begin to sowe Oats, Barley, Parsenips, Onyons, Carrets,

rrets, Cucumbers, Melons, and all kind of Pot-
rbs, slip Artichokes and Sage, geld Lambs, let
d according to strength and necessity, the sign and
ather also being fit (but take advice of the learned
hisitian) look what disease cannot be cured in the
pring time by phisick, will hardly be cured all the
r after.

April.

Owe Barley, Hemp, and Flax, Pole Hops, set
and sowe all kinde of Garden herbs, open Hives,
and let Bees labour for their living, let Tanners
provide them for Bark, and all good Housewifes
to their Dairies; bleed and purge with advice
se that are troubled with aches, or the gout, let
m go to the Baths in this or either of the months.

May.

Owe Barly on all light sands and bearing grounds,
and likewise Hemp and Flax, and all manner of
e seeds and herbs, take Lambs from their Dams,
r land for Wheat and Rye, leave lopping of Trees,
ach Hops to climb, but cut off the superfluous bran-
es, Rise early, walk the fields, especially by run-
ng streams, Sage and sweet Butter is now an ex-
llent breakfast, Sage and clarified Whey, as also
curvy-grass-Ale, and Wormwood Beer, are whol-
m drinks to be drunk fasting.

June.

Hear sheep, bring home fuel, weed Corn and Gar-
dens, set Rosemary, Carnations, and Gillyflowers,
owe Lettuce and Radish-seed three or four days af-
r the full, for then they will not run to seed, make
hey, carry Sand, Lime, Marl, and Manure, of what
ind soever befitting your land, cut neither hedge nor
Tree in this and the two next moneths, beware of
great thirst, use thin and light Diet, moderate exer-
use, and chaste thoughts.

July.

APply making and getting in of hay, Pull hemp that is ripe, gather Garden Beans, get Rue, and Wormwood, and Gaul to strew on your floors, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no Physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the VVinter live poor, and in want.

August.

FOllow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

IN the beginning of this moneth, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground, kill Bees, make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

SOw Wheat and Rye, the sooner the better, for fear of rain, set Beans and Nuts, gather Winter fruits, the weather dry, in the afternoon, and in the wane of

the

Moon. Cut Rose-trees, if you desire to have store flowers, do this once in two years, refuse not any lawful phisick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

The Manit, till Hogs-trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down timber for Ploughs, Carts, and other implements of husbandry, use wholsome meat and drink, with due exercise to preserve health.

December.

In this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Peasse, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung, look well to your cattel, water and keep moist your medowes, let horses blood, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.

Neque is qui plantat, neque is qui rigat,
Sed Deus qui dat Incrementum.
